Chairman Bruno A. Barreiro  
Board of County Commissioners  
111 N.W. First Street, Suite 220  
Miami, Florida 33128-1963  

Dear Commissioner Barreiro:

The Everglades Coalition, an alliance of 45 local, state and national organizations urges you to deny or defer approval of Florida Power and Lights’s unusual use zoning permit.

It is incumbent upon the County Commission to ensure the protection of Miami-Dade and its residents first and foremost. FPL has failed to provide critical information needed in order to understand the effects of the proposed nuclear power plant expansion on South Florida’s aquifers, endangered species, and America’s Everglades.

With so many unanswered questions, neither Commissioner nor the public can be assured that their interests and health are protected.

I submit to you a copy of our resolution, unanimously passed on October 31, 2007 and ask that you deny Florida Power and Light’s unusual use permit for nuclear expansion at Turkey Point.

Sincerely,

Drew Martin  
National Co-Chair  

Mark D. Perry  
State Co-Chair  

Cc: Mayor Carlos Alvarez
